FLANNELETTE

**9F355—Paris—the home of the world's famous master designers**—has long been exploiting the charm, beauty and practicability of the tunic-blouse, but not until this season have the women of New York appreciated and enthusiastically adopted this bewitching origination. The model illustrated here is a beautiful replica of one of the importations. It is fashioned in lovely Silk Georgette Crêpe. Made with the popularly favored round neck-line and deep armholed kimono sleeves, that are piped with contrasting color. The band at the lower edge, as well as the cuffs, are also of contrasting color Georgette. Richly colored beads in an artistic design embellish the front of the model, as pictured. There are piped openings in front through which a narrow sash has been drawn for adjustment. **COLORS:** Flesh with Copenhagen or white with Copenhagen. **SIZES:** 34 to 46 bust measure. **\$11.98**

**9F354—Another delightful version of the Paris conceived tunic-blouse.** Made of lovely, high-grade Silk Georgette Crêpe. Piping trims the Mandarin sleeves and the collar. Stitching in contrasting color adds an effective note, as pictured. String-sash at waist. **COLORS:** Navy with red or beige with red. **SIZES:** 34 to 46 bust measure **\$9.98**

The sleeves present a delightful new style-note, by being snug above the elbow and puffed gracefully to the wrist, where they are adjusted by a ribbon of self-material. Pin-tucks decorate the shield at the neck and the sleeves. The entire blouse is beautifully embellished with beads, as pictured. Elastic in the waistband. **COLORS:** Beige with red or seal brown with the coral. **SIZES:** 34 to 46 bust measure. **\$11.69**

# A Few Simple Suggestions for Ordering

We want to fill your order exactly right, so we ask you to please read this page carefully.

Perry-Dame Clothes always fit you perfectly if you order the right size garment. And it is a very easy matter for you to find out just what size garment you should wear—that is, by actually taking your measurement with an accurate tape measure.

To find your correct **BUST MEASURE**, take an accurate tape measure and your size will be the number of inches over the largest part of bust, taken over your shirtwaist. (See illustration.) Be sure that the tape measure does not slip up or down in the back, and do not take this measurement too tight. Make no allowances whatever.

To find your correct **WAIST MEASURE**, take this measurement all around your waist, making no allowances.

To find your correct **HIP MEASURE**, take this measurement all around your hips about six inches below your waist-line, making no allowances.

When ordering **SKIRTS**, either with a regulation waist-band or girdle top, give your waist measure taken around your waist, making no allowances; and also give front length, taken from natural waist-line to desired length as shown in the picture between points "A" and "B."
